

i-mate™ ? Smartflip,
for Business, for Pleasure, for Life
the small phone
with
big ideas

Form meets function
as i-mate? widens its Smart-
phone range

Slim, sexy and oozing with style, the new quad-band i-mate? Smartflip is a marvel of mobile engineering, combining unbeatable technical functionality with sophisticated design, for the consumer who switches easily between work and play.

With its super slim clam-shell exterior, full colour dual screens, etched metallic look flat keypad and luminescent backlight for easy navigation, the i-mate? Smartflip is a chic and elegant smart phone. However, packed into its feather-light 99g packaging is a multitude of functionalities that mark it as a highly functional device worthy of the i-mate? brand.

The super-fast EDGE-enabled i-mate Smartflip runs on Microsoft® Windows Mobile® 5.0 with all the familiar applications similar to those on your desktop. This includes Microsoft® Direct Push* technology which provides up to the min-

ute access to your Outlook® email, calendar, contacts, and tasks. The addition of a range of ClearVue document viewers including Word, Excel, PDF & Powerpoint makes this stylish device a complete package for those doing business on the run.

Bluetooth® compatible, the i-mate Smartflip also features Hotmail, MSN® Messenger, Internet Explorer Mobile® and Windows Media® Player Mobile, while an in-built 1.3 Megapixel camera, camcorder, MP3 player and interactive gaming add to its attractions as a mobile source of entertainment.

"The i-mate Smartflip combines elegant good looks, with great style and unmatched functionality - making it perfect for the urban professional on the go," said i-mate? global director of sales, Jack Craine

The new i-mate Smartflip is available now with an one year international warranty through

the authorised distributor in Sri Lanka, Infinity Technologies (Pvt) Ltd.
